
Diatomite Market Review

ABSTRACT

This report focuses on the study of the global diatomite markets. It provides region analysis on diatomite production. It features major diatomite producers, prices, supply and demand conditions, international trade, etc. The review also includes future outlook of the world diatomite market.

Diatomite is a siliceous sedimentary rock composed of the skeletons of fossilised diatoms (microscopic plants). Clay content of the rock has a strong control on the quality of the diatomite. Diatomite is valued for its high porosity, chemical inertness and ability to absorb liquids. It is used in industry within high-quality filters, as a filler and as an industrial absorbent.

The report was worked out with respect to the current economic situation caused by financial crisis. Market trends and expectations were reconsidered from the point of present conditions.

Prepared research features important sides of the market, provides thorough analysis of it focusing on the world market, regional markets and countries ones.

The report volumes 37 pages and encompasses a range of tables and figures illustrating major market tendencies.

TABLE OF CONTENTS

Executive Summary

1. WORLD DIATOMITE MARKET

1.1. Diatomite in Global Industry

1.2. Diatomite Market Overview

2. NORTH AMERICAN MARKET OF DIATOMITE

2.1. USA

pp2.1.1. Production

pp2.1.2. Consumption

pp2.1.3. Foreign Trade

pp2.1.4. Prices

3. LATIN AMERICAN MARKET OF DIATOMITE

3.1. Mexico

3.2. Peru

4. EUROPEAN MARKET OF DIATOMITE

4.1. European Union market of diatomite

pp4.1.1. Denmark

pp4.1.2. France

pp4.1.3. Spain

4.2. CIS market of diatomite

5. ASIAN AND MIDDLE EAST MARKET OF DIATOMITE

5.1. China

5.2. Japan

6. AFRICAN MARKET OF DIATOMITE

6.1. Algeria

7. OCEANIAN MARKET OF DIATOMITE

7.1. Australia

8. FUTURE OUTLOOK (2010-2014)
